

Research Farm Projects

Project

Asparagus trial
Corn breeding
Corn date of planting
Corn green snap
Corn hybrid by cropping system
Corn rate of planting
Crop rotation and N fertilizer for corn
Date of plant of rootworm resistant corn
Demonstration shrub rows
Eggshells as lime source
Fertility requirements for continuous corn
Home demonstration garden
K rates by corn hybrids
Long term K fertilizer for corn and soybean
Long term P fertilizer for corn and soybean
Low linolenic acid soybean variety trial
N rates on corn
P fertilizer for corn-alfalfa rotation
Phytophthora soybean micro plots
Placement methods for K for corn and soybean
Placement methods for P for corn and soybean
Polymer coated urea
Populus breeding
Rust sentinel plot
Select Max rope wick
Soybean date of planting
Soybean disease breeding
Soybean SDS breeding
Specialty soybean test
Sprayer wheel traffic on soybeans
Tillage systems
Time of soybean fungicide
Time of weed control
Tree biomass production
Weed identification garden
